Re: Amendment of
Section 73.202(b)
Table of Allotments
FM Broadcast Stations
Cheyenne, Wyoming
(MM Docket No. 96-242, RM 8940,
Montgomery Broadcasting Limited Liability Company)

Dear Mr. Caton:

Submitted herewith for filing, on behalf of Montgomery Broadcasting Limited Liability Company, Petitioner in the above-captioned FM channel allotment rulemaking proceeding, are an original and four (4) copies of its Comments in response to the Notice of Proposed Rule Making in MM Docket No. 96-242 (RM-8940), FCC Rcd ___, DA 96-1993 (Allocations Branch, Policy and Rules Division, Mass Media Bureau, released December 6, 1996). The enclosed Comments of Montgomery Broadcasting Limited Liability Company are being submitted herewith pursuant to Paragraphs 4 - 7 of the above-referenced Notice of Proposed Rule Making, and pursuant to the provisions of the Appendix to that Notice of Proposed Rule Making, and to the provisions of Sections 1.415 and 1.420 of the Commission's Rules.

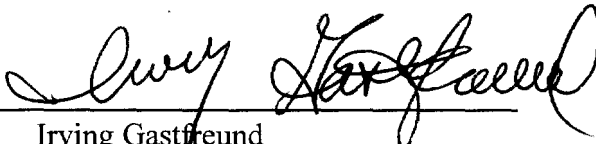

KAYE, SCHOLER, FIERMAN, HAYS & HANDLER, LLP

COMMENTS OF
MONTGOMERY BROADCASTING LIMITED LIABILITY COMPANY

MONTGOMERY BROADCASTING LIMITED LIABILITY COMPANY

("Montgomery"), pursuant to Sections 73.202(b), 1.415 and 1.420 of the Commission's Rules, and pursuant to Section 303 of the Communications Act of 1934, as amended, and pursuant to the applicable provisions of the Notice of Proposed Rule Making in MM Docket No. 96-242 (RM-8940), ___ FCC Rcd ___, DA 96-1993 (Allocations Branch, Policy and Rules Division, Mass Media Bureau, released December 6, 1996, by its counsel, hereby submits its instant Comments in response to the above-referenced Notice of Proposed Rulemaking in the above-captioned rulemaking proceeding, which proposes an amendment to the FM Table of Allotments, as set forth in Section 73.202(b) of the Commission's Rules, to add FM Channel 229A to Cheyenne, Wyoming. In support whereof, it is shown as follows:

On November 7, 1996, Montgomery filed its Petition For Rulemaking in the above-captioned proceeding, in which Montgomery proposed the allotment of Channel 229A to the community of Cheyenne, Wyoming, as that community's sixth local FM transmission service. Montgomery therein demonstrated that the community of Cheyenne, Wyoming, had need for an

additional commercial FM channel in that community and also expressed a present intent of submitting an application to the Commission for a construction permit for a new FM station on Channel 229A in Cheyenne, Wyoming, if the Commission were to assign that channel there. Furthermore, in that Petition For Rulemaking, Montgomery committed itself to construct the station on FM Channel 229A in Cheyenne, Wyoming, as expeditiously as possible if its application for a construction permit for Channel 229A in Cheyenne were granted. In addition, submitted together with Montgomery's aforementioned Petition For Rulemaking was an attached Engineering Statement which demonstrated that FM Channel 229A can be assigned at the reference point specified in that Engineering Statement with a site restriction just north of the City of Cheyenne, Wyoming, and still be in compliance with all applicable Commission channel separation requirements and applicable Commission Rules. Accordingly, Montgomery's above-referenced Petition for Rulemaking demonstrated that the allocation of FM Channel 229A to Cheyenne, Wyoming, would be in the public interest, and Montgomery respectfully requested that the Commission institute rulemaking proceedings contemplating allotment of FM Channel 229A to Cheyenne, Wyoming.

In its Notice of Proposed Rule Making in MM Docket No. 96-243 (RM-8925, ___ FCC Red ___, DA 96-1994 (Allocations Branch, Policy and Rules Division, Mass Media Bureau, released December 6, 1996), the Allocations Branch of the Mass Media Bureau's Policy and Rules Division proposed the allotment of Channel 258A to Chugwater, Wyoming. The Allocations Branch therein expressly stated as follows:

“Our engineering analysis indicates that Channel 229A at Chugwater conflicts with a pending proposal for the allotment of Channel 229A at Cheyenne,

Wyoming (RM-8940).¹ However, in an effort to accommodate petitioner's proposal an alternate Class A channel has been found [for Chugwater, Wyoming] to avoid the conflict. We believe the proposal warrants consideration since the proposed allotment of Channel 258A at Chugwater, Wyoming, could provide the community with its first local aural transmission service. An engineering analysis has determined that Channel 258A can be allotted to Chugwater [Wyoming] in compliance with the Commission's minimum distance separation requirements at city reference coordinates [Footnote omitted.]”

Id. at slip op. at 1-2, ¶3.

In short, based on the Commission's sua sponte action in MM Docket No. 96-243 (RM-8925), Channel 229A is still being proposed by the Allocations Branch of the Mass Media Bureau's Policy and Rules Division for allotment to Cheyenne, Wyoming, consistent with Montgomery's proposal and the Notice of Proposed Rule Making in MM Docket No. 96-242 (RM-8940).

As noted above, on December 6, 1996, the Allocations Branch of the Mass Media Bureau's Policy and Rules Division issued its Notice of Proposed Rule Making in MM Docket No. 96-242 (RM-8940), __ FCC Rcd __, DA 96-1993 (Allocations Branch, Policy and Rules Division, Mass Media Bureau, released December 6, 1996), involving Montgomery's rulemaking proposal. The Allocations Branch therein formally proposed that FM Channel 229A be allotted to Cheyenne, Wyoming, as that community's sixth local transmission service. Thus, that Notice of Proposed Rule Making was fully consistent with the Notice of Proposed Rule Making of the Allocations Branch in MM Docket No. 96-243 (RM-8925), involving the allotment of FM Channel 258A to Chugwater, Wyoming.

¹ As will be noted, RM-8940 (MM Docket No. 96-242) is the November 7, 1996 Petition For Rulemaking of Montgomery.

The Notice of Proposed Rule Making in MM Docket No. 96-242 (RM-8940) involving Channel 229A in Cheyenne, Wyoming and the Appendix to that Notice require the Petitioner herein, Montgomery, to file its instant Comments in support of its proposal. Its instant Comments are being filed to reaffirm that, if FM Channel 229A is allotted, as proposed, to Cheyenne, Wyoming, Montgomery intends to file an application for Channel 229A in Cheyenne, Wyoming, within the appropriate filing window, and, if the latter application is granted, Montgomery intends to construct the station promptly. Montgomery hereby incorporates by reference the contents of its November 7, 1996 Petition For Rulemaking in this proceeding and of the Engineering Statement annexed thereto.

Montgomery is aware that the Commission's FM channel allotment priorities are: (1) first aural service; (2) second aural service; (3) first local service, and (4) other public interest matters. Co-equal weight is given to priorities (2) and (3) above. See Revision of FM Assignment Policies and Procedures, 90 FCC 2d 88, 92 (1982); Modification of FM and TV Authorizations To Specify a New Community of License, 4 FCC Rcd 4870, 4876 n. 8 (1989). In recognition of the foregoing, Montgomery hereby reaffirms that the community of Cheyenne, Wyoming, is a separate community deserving of an additional local outlet of FM expression. In this regard, and as noted previously by Montgomery in its Petition For Rulemaking in this proceeding, the community of Cheyenne, Wyoming, had a population (based on 1990 U.S. Census figures) of 50,008, which represents an increase of over 2,700 residents since 1980. While the Commission's Table of FM Channel Allotments reflect that there are presently five commercial FM broadcasting channels allotted to Cheyenne, Wyoming, that community and its surrounding

area can well support and deserves an additional FM channel allotment, as has been proposed by Montgomery in this proceeding.

In this latter regard, it should be noted that the city of Cheyenne, Wyoming, is the capital city of the State of Wyoming and is the largest city in the state. Laramie County, Wyoming, in which Cheyenne is situated, is the largest population center in the State of Wyoming, and Cheyenne is the largest population center within Laramie County. The City of Cheyenne is also an incorporated place. Annexed hereto as Exhibit 1 are photocopies of certain key pages from the World Wide Web pages of the U.S. Census Bureau concerning Cheyenne, Wyoming, wherein certain critical demographic information regarding Cheyenne, Wyoming, is listed. The enclosed demographic information reflects that the 1994 population of Cheyenne, Wyoming was 53,497 -- representing an increase of 3,489 persons in the city's population in the four years between 1990 and 1994.

Furthermore, it is respectfully submitted that the city of Cheyenne, Wyoming is very much in need of an additional, independently-owned, operated and programming outlet of local FM self-expression, since one or both of the Michael brothers (i.e., Victor A. Michael, Jr., and/or Van A. Michael and/or a company they control -- Magic City Media, Inc. -- owns, operates, controls or programs or will soon own, operate, control or program, three of the five present Cheyenne, Wyoming, commercial FM broadcasting stations (i.e., Radio Stations KIGN(FM), KKAZ(FM) and KLEN(FM), all in Cheyenne, Wyoming).² Thus, allocation of FM Channel

² In addition, one or both of the Michael brothers or an entity controlled by one or both of
(continued...)

229A to Cheyenne, Wyoming, will serve the public interest by enhancing diversity in the ownership and control and programming of mass communications media in Cheyenne, Wyoming

Based on all the foregoing, the public interest, convenience and necessity would best be served by expeditious allotment of FM Channel 229A to Cheyenne, Wyoming, as that community's sixth local transmission service, as proposed by the Allocations Branch in its Notice of Proposed Rule Making in the above-captioned proceeding.

Respectfully submitted

Cheyenne/Laramie County Profile

Cheyenne, Wyoming, is located near the geographical and time center of North America. Strategically situated at a major transportation hub (the intersection of Interstates 25 and 80 and two major railroads), it is a developing center of commerce. Only 90 minutes north of Denver, Cheyenne sits as the northern anchor city of the Front Range of the Rocky Mountains. Cheyenne is the capital city of Wyoming, the seat of Laramie County and the site of Warren Air Force Base.
